Moisture level of 30% & above

Moisture level of 30% & above

They are very creased, distinctively yellow and acorn-shaped dates. They are the Queen of Dates that are appreciated for their golden, light, melt-in-your-mouth goodness. It has a texture that is both moist and crunchy, almost toffee fudge-like.

None of the characteristics shown in the below table is permitted*

Standards for Grades of Dates

Mechanical Injury	Broken Skin
Lack of Proper Pollination	Lack of Size Uniformity
Inner Dark Discolouration	Puffiness
Spotting	Scaring
Damaged by Discoloration	Sun Burn
Insect Injury	External Skin Discolouration**

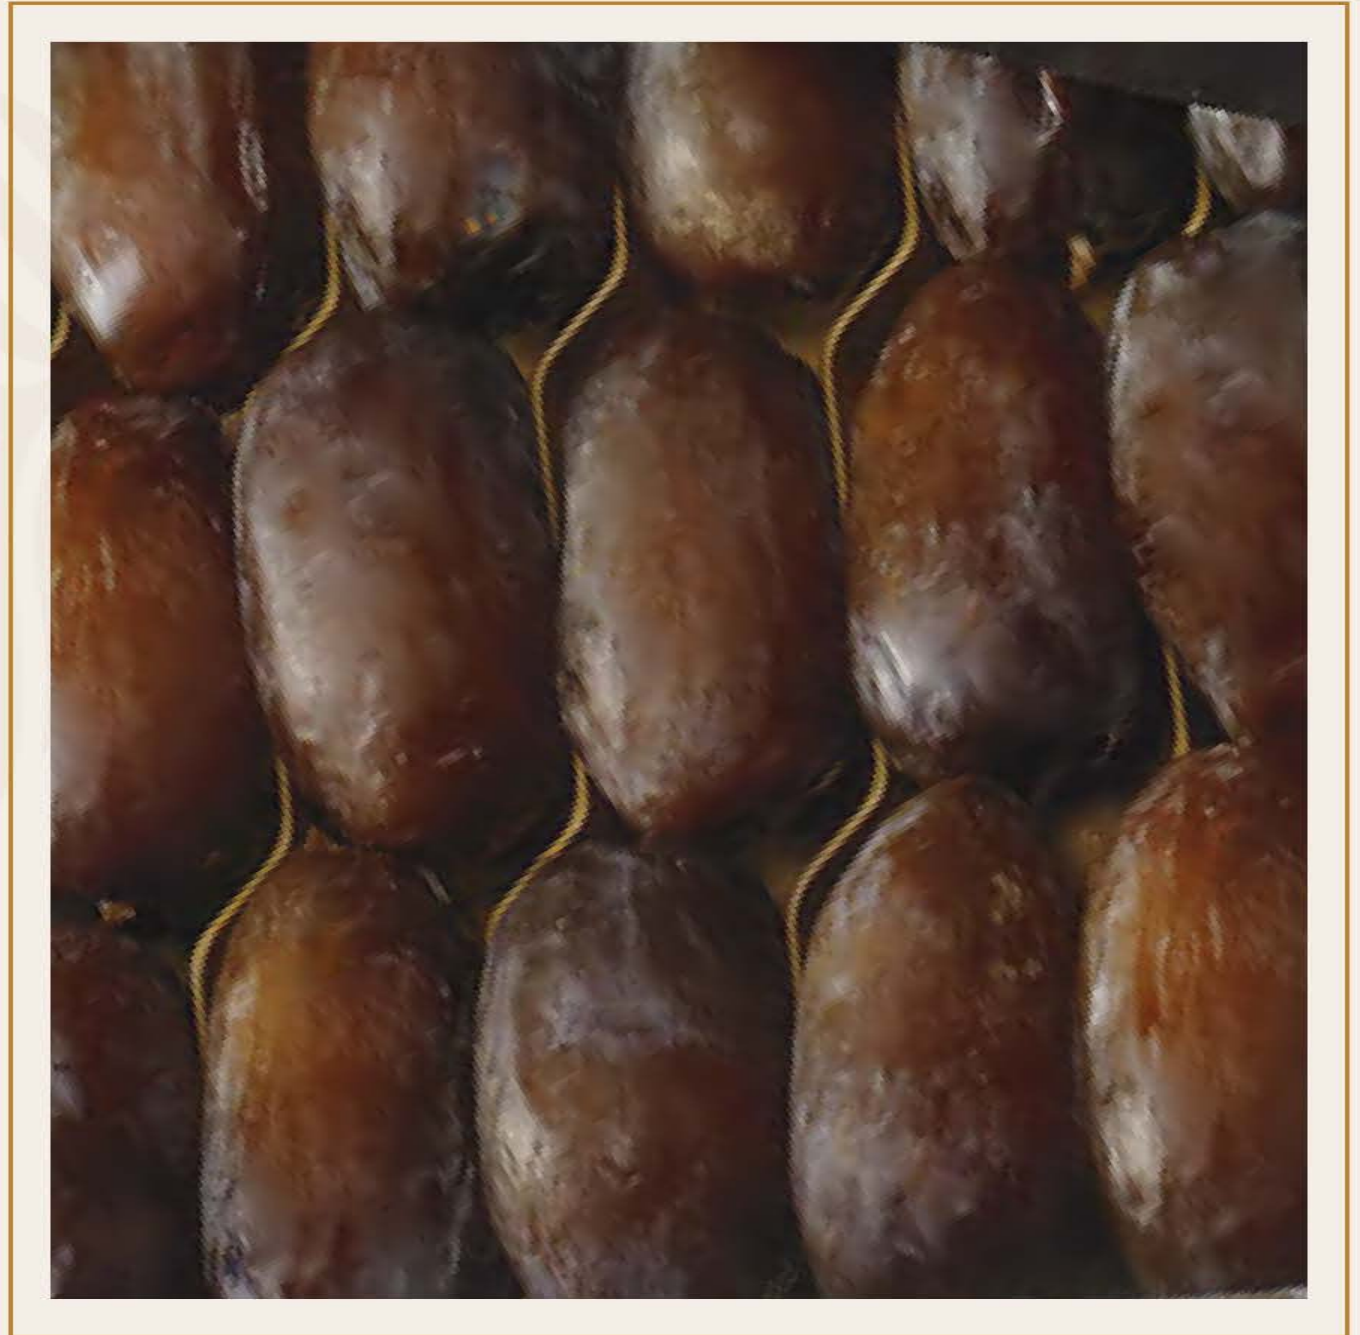

* According to the American standard issued on 26 Aug 1955
 ** Dark brown grades between # 8B4513 to # D2B48C a

Bon Bon Dates

These juicy-sweet dates are a type of renowned Medjool dates. They have a wonderfully smooth texture and sweet flesh, dripping with honeyed juice. They are incredibly soft, succulent, and wonderfully sweet.

None of the characteristics shown in the below table is permitted*

Standards for Grades of Dates
